Moschee-Neubauten Lucia Stöckli, 2020-04-30 In den letzten Jahrzehnten sind in Europa vermehrt Moschee-Neubauten entstanden. Lucia Stöcklis religionswissenschaftliche Studie geht der Geschichte der Etablierung der Moschee-Neubauten in England und der Schweiz nach und beleuchtet ihre Bedeutung für die Muslime. Anhand bestehender und in Planung befindlicher Bauprojekte arbeitet sie gemeinsame Strukturen sowie nationale Kontexte heraus und untersucht Themen wie die Entwicklung eines multifunktionalen Zentrums, die Rolle der Frau in den Moschee-Neubauten sowie den Stellenwert der Sichtbarkeit dieser Bauten für die Muslime.

Islamic Psychology G. Hussein Rassool, 2021-03-31 Islamic Psychology or ilm an-nafs (science of the soul) is an important introductory textbook drawing on the latest evidence in the sub-disciplines of psychology to provide a balanced and comprehensive view of human nature, behaviour and experience. Its foundation to develop theories about human nature is based upon the writings of the Qur'an, Sunna, Muslim scholars and contemporary research findings. Synthesising contemporary empirical psychology and Islamic psychology, this book is holistic in both nature and process and includes the physical, psychological, social and spiritual dimensions of human behaviour and experience. Through a broad and comprehensive scope, the book addresses three main areas: Context, perspectives and the clinical applications of applied psychology from an Islamic approach. This book is a core text on Islamic psychology for undergraduate and postgraduate

students and those undertaking continuing professional development in Islamic psychology, psychotherapy and counselling. Beyond this, it is also a good supporting resource for teachers and lecturers in this field.

**Selbstdarstellung** Sigmund Freud, 2017-12-12 Zwei Themen ziehen sich durch diese Arbeit, das meiner Lebensschicksale und das der Geschichte der Psychoanalyse. Sie treten in die innigste Verbindung zueinander. Die Selbstdarstellung zeigt, wie die Psychoanalyse mein Lebensinhalt wird, und folgt dann der berechtigten Annahme, daß nichts, was mir persönlich begegnet ist, neben meinen Beziehungen zur Wissenschaft Interesse verdient.

*Psychology Moving East* Geoffrey H Blowers, Alison M Turtle, Phom Minh Hac, Hamida A Begum, 2019-06-04 Psychologists from nineteen countries in Asia and Oceania report on the expansion of western psychology in the region at both the academic and the professional levels. With its own network of associations, conferences, and journals, the community of psychologists in the East has braved new frontiers for the discipline, yet its achievements are little

Counseling Muslims Sameera Ahmed, Mona M. Amer, 2013-06-17 A young female client presents with anorexia nervosa and believes that her problem has its roots in magic; parents are helpless in the face of their son's substance abuse issues; an interracial couple cannot agree on how to discipline their children. How would you effectively help these clients while balancing appropriate interventions that are sensitive to religious, cultural, social, and gender differences? This handbook answers these difficult questions and helps behavioral health practitioners provide religio-culturally-competent care to Muslim clients living in territories such as North America, Australia, and Europe. The issues and interventions discussed in this book, by authoritative contributors, are diverse and multifaceted. Topics that have been ignored in previous literature are introduced, such as sex therapy, substance abuse counseling, university counseling, and community-based prevention. Chapters integrate tables, lists, and suggested phrasing for practitioners, along with case studies that are used by the authors to help illustrate concepts and potential interventions. *Counseling Muslims* is also unique in its broad scope, which reflects interventions ranging from the individual to community levels, and includes chapters that discuss persons born in the West, converts to Islam, and those from smaller ethnic minorities. It is the only guide practitioners need for information on effective service delivery for Muslims, who already bypass significant cultural stigma and shame to access mental health services.

Great Muslim Leaders Melanie C. Brooks, Miriam D. Ezzani, 2023-03-01 *Great Muslim Leaders* presents Islamic-informed alternatives to Eurocentric Christian understandings of education and educational leadership. It does so by interrupting and displacing the West's centuries long dismissive stance and monolithic gaze on Islam by showcasing outstanding diverse Muslim leaders across space and time. Each chapter focuses on a single leader, and includes a biographical sketch; a discussion of their context and activities as a leader; key lessons readers can learn from their leadership, and

recommendations that are relevant for teachers and educational leaders. This collection of Muslim leaders, chosen by Muslim scholars, brings to education discourse the breadth of Islamic intellectual history, giving the book a global appeal and facilitating a sharing of innovative and classic ideas across cultures, faith traditions, and national boundaries. Great Muslim Leaders introduces to readers Muslim intellectuals, spiritual leaders, philosophers, poets, artists, activists, scientists, celebrities, politicians, educators, film makers, historical figures, theorists, and academics whose lives have positively shaped their community, society, and the world. Their lived experiences are underpinned by deep spirituality and faith, revealing the significance and import religious belief has on moral and ethical action. The book concludes with seven lessons that cut across the chapters that encapsulate the immense value Islamic spirituality and faith bring to education and leadership.

ENDORSEMENTS: In recent years many books have been written on Islam and Muslims. However, Great Muslim Leaders: Lessons for Education is a 'must read.' In this unique, well written and engaging study, Melanie Brooks and Miriam Ezzani demonstrate how faith and spirituality have informed the lives and accomplishments of major Muslim leaders in a broad section of professions. — John L. Esposito, Georgetown University Scholars of leadership ignore spiritual and religious exemplars at their peril. By seeking such exemplars from Islam in such an organic manner, this volume models the central lessons it conveys: promoting pluralism, thoughtfully questioning, critically reflecting, and, most vitally, helping us recognize and embrace the sacred trust of leadership. — Martin Scanlan, Boston College Great Muslim Leaders: Lessons for Education is timely, inspirational and packed with lessons for educators and learners alike. At a time when Islamic education is moving toward renewal, this book will provide much needed insight, real-life lessons and direction. This is a must read for anyone seeking to be enriched by the lives of great Muslim leaders - be they learners, educators or leaders. — Mohamad Abdalla AM, University of South Australia So many popular leadership books tell the same story of a great white American man who overcame obstacles to build an empire. It is refreshing to read this book featuring educational leaders whose Muslim faith is central to their practice and whose work is bigger than themselves. The biographies of these diverse leaders from across the world offer lessons in humility and hope as well as practical tips for other leaders who seek to apply their faith, whether Muslim or not, to a more connected way of being and of leading. —Joanne M. Marshall, Iowa State University

*Developing a Model of Islamic Psychology and Psychotherapy* Abdallah Rothman, 2021-07-29 At a time when there is increasing need to offer psychotherapeutic approaches that accommodate clients' religious and spiritual beliefs, and acknowledge the potential for healing and growth offered by religious frameworks, this book explores psychology from an Islamic paradigm and demonstrates how Islamic understandings of human nature, the self, and the soul can inform an Islamic psychotherapy. Drawing on a qualitative, grounded theory analysis of interviews with Islamic scholars and clinicians, this unique volume distils complex religious concepts to reconcile Islamic theology with contemporary notions of psychology. Chapters offer nuanced explanations of relevant Islamic tradition and theological sources, consider how this relates to

Western notions of psychotherapy and common misconceptions, and draw uniquely on first-hand data to develop a new theory of Islamic psychology. This, in turn, informs an innovative and empirically driven model of practice that translates Islamic understandings of human psychology into a clinical framework for Islamic psychotherapy. An outstanding scholarly contribution to the modern and emerging discipline of Islamic psychology, this book makes a pioneering contribution to the integration of the Islamic sciences and clinical mental health practice. It will be a key resource for scholars, researchers, and practicing clinicians with an interest in Islamic psychology and Muslim mental health, as well as religion, spirituality and psychology more broadly.

**The AIDS crisis** Malik Badri, Humanology, The story of this book clearly shows the great need of Muslims for a reference that guides them in Islamically preventing HIV/AIDS after the failure of the secular Western model of condoms and clean syringes. Its first edition was published in 1997. It was widely distributed and quickly sold out by Barnes & Noble that gave it the highest 5-star rating of bookselling. Its second and third editions were published by the Islamic Medical Association of South Africa that conferred upon it the award of the best contribution to Islamic Medicine for the year 2000. In Sudan, it received the Shahid Zubair Prize in the year 2004. This is the highest award for academic excellence. The book soon achieved an international status and Muslims scholars realized the need for its translation. The book is now published in Arabic by the International African University in Sudan, in Bosnian by el-Kalem publishers in Sarajevo, in Russian by the International Institute of Islamic Thought and in the press in Swahili, the language of East African. Though it discusses in depth medical, cultural, philosophical and Islamic issues, its language is accessible to laymen.

**Culture and Islamic Adaptation Psychology** Malik Badri, Humanology, 2018-03-15 The indiscriminate exportation of Western psychology to Muslim and third world countries can pose serious cultural and ideological dilemmas. When the exported commodity from North to South is physical in nature, the harm done can easily be identified; for example the quick detection of the life threatening birth defects caused by the drug thalidomide when taken during pregnancy or the flaws in the breaking system of a Japanese car. However, when the exported product is ideas and beliefs and ways of life, the indirect and sneaky damage, is often much more malevolent and long-lasting because it attacks the worldview of the recipients and it shakes their cherished beliefs. Because of its technological supremacy Islamic and developing countries got used to wholeheartedly accepting any information coming from the West if it is under the tag of “science”. By presenting itself under this prestigious ‘mantra’ of science, students in Muslim countries swallow the kernel of psychology with its nutshell; the baby with its filthy water. The danger of this approach is greatly augmented by the shortcomings of our educational systems that discourages critical thinking and encourages the submissive acceptance of the words of the teacher and that of printed material.

Islāmic Counselling and Psychotherapy G. Hussein Rassool, 2024-10-08 Islāmic Counselling and Psychotherapy: An

Introduction to Theory and Practice provides foundation-level knowledge of and perspective on the fundamental principles and practices of counselling and psychotherapy from an Islāmic perspective. This groundbreaking practical framework incorporates Islāmic spirituality, religion, and cultural contexts into the therapeutic process. It makes the case that authentic Islāmic spirituality, based on submission to God, forms the cornerstone of good mental health. The book's foundation focuses on the therapist's role and ethical considerations specific to Islāmic psychotherapy. It explores the integration of Qur'ānic teachings and hādīths and delves into dream interpretation and the clinical applications of the Siraat Al-Islāmic psychotherapy practice model. This thoroughly revised new edition also highlights advances and developments in scholarship and evidence-based practices and introduces postmodern psychotherapy approaches like narrative and hope therapy. This text provides a clear understanding of the nature, scope, and process of Islāmic psychotherapy for Islāmic practitioners or clinicians working with Muslim clients.

**American Journal of Islam and Society (AJIS) - Volume 39 Issues 1-2** Ali Altaf Mian, Emily Goshey, Aasim Padela, Thahir Jamal Kiliyamannil, Suheil Laher, Ismail Hashim Abubakar, Martin Jiajun He, Ali Cebeci, Max Dugan, Abdallah Rothman, Alisha Ahmed, Rania Awaad, 2022-08-01 The four articles, two review essays, various book reviews, and obituary contained in this issue all revolve around contestations of Islamic authority. Notably, two of these articles are drawn from the AJIS symposium on Maqāṣid whose first set of essays were featured in the previous issue (38:3-4) dedicated to the topic. In the first article, "Agents of Grace," Ali Altaf Mian develops a sophisticated and nuanced reading of "intentionality" in the work of the moral theologian al-Ghazali. Mian reads the latter's work to disclose ethical action as a site of contingency and ambivalence, indeed of the subject's "non-sovereignty." He contributes this theorization of intentionality as a constructive critique of accounts of ethical agency in the anthropology of Islam. In the second article, "No Scholars in the West," Emily Goshey carefully unpacks the ostensible paradox by which Western Salafis who studied in the Muslim world are not seen as "scholars" by the very communities they lead. What then comprises religious authority and scholarship within these models of knowledge transmission? Goshey tracks the dynamics of scholarship and community leadership based on fieldwork with African American Salafi affiliate communities in Philadelphia. In the third article, "Maqāṣidi Models for an 'Islamic' Medical Ethics," Aasim Padela presents a typology of maqāṣid-based approaches to medical ethics. Whether requiring a field-based redefinition, a conceptual extension, or a text-based postulation of the classical maqāṣid theory, however, Padela shows that these frameworks remain woefully underdeveloped to offer appropriate and sufficient guidance for pressing bedside cases. In the fourth article, "Developing an Ethic of Justice," Thahir Jamal Kiliyamannil offers a creative rereading of new Muslim movements in South India. Rather than relying on old typologies about political Islam or secularized activists, he considers the Solidarity Youth Movement to articulate an Islamic ethic of justice inspired by Abul A'la Maududi. This case study shows not only how the maqāṣid framework may inform discourses well beyond the domains of legal practice, but also how this

specific articulation of political justice is based in the praxis of the Indian Muslim minority. These four articles and the remaining elements of the issue foreground contemporary contestations of Islamic authority. Read together, they also offer a set of terms for thinking productively about its contours, limits, affordances, and possibilities.

*Applying Islamic Principles to Clinical Mental Health Care* Hooman Keshavarzi, Fahad Khan, Bilal Ali, Rania Awaad, 2020-07-26 This text outlines for the first time a structured articulation of an emerging Islamic orientation to psychotherapy, a framework presented and known as Traditional Islamically Integrated Psychotherapy (TIIP). TIIP is an integrative model of mental health care that is grounded in the core principles of Islam while drawing upon empirical truths in psychology. The book introduces the basic foundations of TIIP, then delves into the writings of early Islamic scholars to provide a richer understanding of the Islamic intellectual heritage as it pertains to human psychology and mental health. Beyond theory, the book provides readers with practical interventional skills illustrated with case studies as well as techniques drawn inherently from the Islamic tradition. A methodology of case formulation is provided that allows for effective treatment planning and translation into therapeutic application. Throughout its chapters, the book situates TIIP within an Islamic epistemological and ontological framework, providing a discussion of the nature and composition of the human psyche, its drives, health, pathology, mechanisms of psychological change, and principles of healing. Mental health practitioners who treat Muslim patients, Muslim clinicians, students of the behavioral sciences and related disciplines, and anyone with an interest in spiritually oriented psychotherapies will greatly benefit from this illustrative and practical text.

**Advancing Islāmic Psychology Education** G. Hussein Rassool, 2023-07-20 This book provides academic and clinical institutions for developing their educational programmes in psychology, psychotherapy, and counselling from an Islāmic paradigm. Examining the educational approach in the decolonisation of psychology curricula, the book proposes a vertically and horizontally integrated, embedded curriculum model. This model meets the changing needs of practitioners, incorporating indigenous cultural aspects and emerging technologies to reflect new and creative ways of thinking about delivering education in the post Covid-19 era. The chapters also demonstrate how curriculum development, based on the principles of Islamic education, helps institutions to establish purpose, define activities, and guide decision making in educational development. A series of steps for implementing this need-driven educational programme has been suggested. This practical, concise, and evidenced-based text will be a key resource for educators and trainers. It will help them understand how to re-design or suggest changes to curriculum structure, shape, and content in Islāmic psychology, psychotherapy, and counselling for undergraduate, postgraduate and continuing professional development levels of education.

**Islam & Psychology: Principles and Practices** Mohd Nasir Masroom, 2024-06-01 *Islam & Psychology: Principles and Practices* by Mohd Nasir Masroom is an insightful and comprehensive exploration of the integration of Islamic teachings with

contemporary psychological principles. Drawing on the author's extensive experience as a senior lecturer in Islamic Psychology and Counseling, this book delves into the rich and nuanced intersection of faith, spirituality, and mental health. The book is divided into 20 engaging chapters, each offering a deep dive into critical aspects of Islamic psychology. It begins by exploring the foundational interface between psychology and religion, emphasizing the often-overlooked dimension of spirituality. Early chapters introduce key Islamic concepts such as al-Ruh (the spirit), al-Qalb (the heart), al-Nafs (the self), and al-Aqal (the intellect), providing readers with a thorough understanding of the Islamic view of human nature (Fitrah) and personality. As the book progresses, it offers a detailed examination of the development of embryonic stages, the significant contributions of five eminent scholars of Islamic psychology, and the profound implications of the pillars of faith (iman) and Islam on individual well-being. The discussion extends to the spiritual science of Tasawwuf, exploring spiritual heart diseases and the illnesses of the soul, and providing insights into their spiritual cures. The book also addresses practical applications of Islamic psychology in therapeutic settings, with dedicated chapters on Islamic counseling, psychotherapy, and mental health. These sections highlight how Islamic teachings can be effectively utilized in counseling and therapy, considering the cultural and religious contexts of the patients. A unique exploration of the connection between Jinn, Ruqyah (spiritual healing), and mental health further enriches this discussion. In the final chapters, the book turns its focus to the emotional aspects of the human experience. It examines emotions such as patience, gratitude, acceptance, trust in Allah, bravery, fear, happiness, sadness, love, and hate, all through the lens of Islamic teachings. These discussions offer a holistic view of how emotions are understood, managed, and nurtured in Islam. *Islam & Psychology: Principles and Practices* is a valuable resource for students, scholars, and professionals in the fields of psychology and Islamic studies, as well as for anyone interested in the ways in which faith and spirituality influence mental health and well-being. By bridging classical Islamic knowledge with modern psychological practices, this book offers a unique perspective that not only enhances our understanding of psychology but also enriches our approach to mental health in a way that is deeply rooted in faith and spirituality. The State of Social Progress of Islamic Societies Habib Tiliouine, Richard J. Estes, 2016-04-08 This handbook addresses the historical background of the Islamic world and reviews its basic past intellectual achievements. It studies social progress of these regions and sub-regions in comparison with other parts of the world. It uses large data sets and well established statistically weighted Indexes in order to assess the nature and pace of the multiple facets of social change in member states of the Organization of Islamic Cooperation (OIC). The handbook extensively discusses the main challenges confronting the Islamic nations in the social, economic, political, and ideological fields. Though it is recognizable that social change in the Islamic World is generally positive, it remains highly variable in pace and there is room to speed it up to the benefit of millions of deprived Muslim people. Hence, the book studies the different propositions and programs of action, such as the

United Nations' Millennium Development Campaign and the OIC's Ten-Year Programme of Action to present an integrated and comprehensive agenda of action to help improve the situation in the Islamic World.

*A Cross-Cultural Redefinition of Rational Emotive and Cognitive Behavior Therapy* Murat Artiran, 2019-08-21 This unique volume integrates history, mythology/folklore, and theory and research to bridge the gap between Western and Middle Eastern approaches to and understanding of psychotherapy, particularly Cognitive Behavior Therapy (CBT) and Rational Emotive Behavior Therapy (REBT). Part I lays the foundation with an overview of the theoretical essentials of REBT and CBT in the West, the goals and assumptions of REBT and CBT in the Middle East, and what Middle Eastern clients understand about cognitive distortions, irrational beliefs, and emotions. In Part II, chapters delve more deeply into how psychology is placed in the context of Middle Eastern folklore. The author provides a summary of the history of psychology in the Middle East; an analysis of the relevance of Sufism to self-acceptance, acceptance of others, and life acceptance; and an evaluation of the use of metaphor in psychotherapy from the Middle Eastern perspective. Finally, the author provides case studies that show how these concepts are applied in practice. This text is ideal reading for researchers and clinicians who study Middle Eastern psychology and who work with Middle Eastern clients, as well as for Middle Eastern psychologists and clients.
